## Risk Profile Questionnaire Update

Dear Customer,

To better fulfill new regulatory requirements, HSBC Bank (China) Company Limited (“HSBC”) has adopted an updated version of Risk Profile Questionnaire for personal customers as from 19 November 2017. The updated version can give a more comprehensive and reasonable assessment of your risk tolerance considering your Financial Conditions, Investment Knowledge & Experience, Investment Style and Risk Tolerance. **To protect your rights, please update your risk profile result by using the updated Risk Profile Questionnaire as soon as possible. Otherwise, your risk profile assessed before 19 November 2017 will expire automatically after 31 December 2017(if you are under Regular Investment Plan for Local Unit Trust, such Regular Investment Plan will also be terminated accordingly).** You can update your risk profile result by visiting HSBC branches offering retail banking and wealth management service, or by logging on to your personal online banking or mobile banking.

Please note that if you have never filled Risk Profile Questionnaire, you still need to visit HSBC branches offering retail banking and wealth management service to complete the first time risk profile assessment.
